

Storytelling script for TrueView Ads

My name is Alex Genadinik from AlexGenadinikMusic on YouTube and I've always had a passion for music.

When I say passion, it is that deep drive that you know is the calling of your life.

If you can't identify with that type of passion in life or for music, I don't want to waste your time so this video is not for you.

So feel free to just skip this ad since I don't want to waste your time.

But if you can really feel what I am talking about, stick with me in this video as I share my passion for music which you and I share and can connect on.
